Waste Reduction Page

As required in 40 CFR 262.56(a)(5) and 40 CFR 262.87(a)(5), Except for hazardous waste produced by exporters of greater than 100 kg but less than 1000 kg in a calendar month, unless provided pursuant to §262.41 [biennial report], when submitting in even numbered years:

<p>(i) A description of the efforts undertaken during the year to reduce the volume and toxicity of waste generated:</p>	<p>Swiftlift Inc accepts SLAB's from customers replacing traction batteries used in their electric powered forklifts. We accept such batteries only if we sell the replacement battery and the customer has no way to dispose of the SLAB. We train our customers in the proper care and maintenance of batteries in order to extend the life of the battery. We believe this education has resulted in longer battery life and therefore, reduction in waste.</p>
--	--

<p>(ii) A description of the changes in volume and toxicity of waste actually achieved during the year in comparison to previous years to the extent such information is available for years prior to 1984:</p>	<p>Volumes based only on customer needs. Swiftlift Inc does not have records of customer use.</p>
